## Tips to Create Trade Show Booths with a WOW Factor

You may find these tips rather simple yet a surprising number of companies, associations and business owners are failing to see that these tips are the key to developing the foundation of a successful trade show booth.

1. Keep your company logo and tag line centered at the top of your display.
2. Consider posting 2- 4 key bullet points (addressing needs and outcomes) in the middle panel of the display.
3. Keep your space clean and tidy. Avoid having garbage lying around (cups, candy wrappers, items left by attendees etc.).
4. Text – keep it simple, bold, concise and in large font. You want prospects able to read it from outside the booth.
5. Keep it open – avoid placing the table in front of the booth creating a barrier. Consider placing the table either to the back of the space or on either side of the booth. This creates a warm, open, inviting space.
6. Graphics/Photos – be selective choose bold, colorful, engaging items that compliment your brand and key bullet points.
7. Color scheme – select colors that either represent your company’s logo or compliments the company’s logo, brand and image. Be cautious not to invest in trendy colors as they change frequently. Displays are a rather costly investment, not something you want to replace often.
8. Do it right or not at all – be prepared to invest the funds to create a quality professional display that represents the image the company wants to project.
9. Lead Management – consider renting or purchasing electronic lead machines, enter data right into your computer on site or gather business cards.
10. Be provocative – write content that entices, challenges and addresses what is in it for the attendees company, association or business.
11. Audio/Visuals – these can be attraction grabbing to entice the attendees creating a desire and an opportunity to highlight your company’s products or services. You could also show demonstrations and testimonials.
12. Add lighting – to light feature key point or graphics which you want to capture the attention of the attendees.

If you incorporate these tips in your planning you will create a strong, memorable booth and are more likely to attract interested prospects to your booth.
